Art Unit: 1724

1. Applicant's claim for domestic priority under 35 U.S.C. 119(e) is acknowledged.

2. The listing of references in the specification (page 3 lines 7-8, page 5 lines 9-10, page 6 lines 10 and 12) is not a proper information disclosure statement. 37

CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609 A(1) states, "the list may not be incorporated into the specification but must be submitted in a separate paper."

Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

3. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference sign(s) not mentioned in the description:

"15", "21", "24", "18", "12", "13", "22", "23" as in Fig. 1.

"39" as in Fig. 2.

"60", "61", "63", "66", "64", "68", "67", "65" as in Fig. 3.

"60", "61", "70", "71", "63", "66", "76", "68", "69", "67", "65" as in Fig. 4.

"60", "61", "71", "70", "63", "66", "67", "65", "68", "69" as in Fig. 5.

A proposed drawing correction, corrected drawings, or amendment to the specification to add the reference sign(s) in the description, are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

4. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: "18" in fig. 2 as on page 12 line 14.

Art Unit: 1724

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

5. It is suggested that in instant claim 14 line 12 "the at least one conduit" should be amended as —at least one conduit means—for clarity. "the" appears to be typographical error.

6. Claims 1-19 are allowed over the prior art of record.

7. The following is an examiner's statement of reasons for allowance: None of the prior art of record teach nor suggest the claimed features of a process for separation of a feed gas including hydrogen gas and carbon monoxide gas including the steps of withdrawing at least one hydrogen rich stream from a wash column at a location intermediate of the a first hydrogen stream and a first carbon monoxide stream in combination with the other recited features of instant independent claim 1 nor the apparatus for practicing the method as in instant claim 14 nor a process as recited in instant claim 19.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Art Unit: 1724

Prior art references listed on PTO-892(Notice of References Cited) are considered to be of interest, disclosing similar methods and apparatus.

9. This application is in condition for allowance except for the formal matters.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
